

1. Go to <https://tryhackme.com> and log in
2. Complete these two rooms in order:

Room 1:

<https://tryhackme.com/room/wiresharkthebasics>

Room 2:

<https://tryhackme.com/room/wiresharkpacketoperations>

The screenshot displays the TryHackMe dashboard. At the top, a banner for 'Web App Pentester Level 1 (WEB1)' is visible, featuring a red shield icon with 'TryHackMe CERTIFIED WEB1' and a description: 'A hands-on certification that proves you can find, exploit and remediate real web vulnerabilities, across blackbox, whitebox and greybox.' Below this is a 'Learn more' button. The dashboard navigation bar includes links for 'Dashboard', 'Learn', 'Practice', 'Compete', and 'HH 2026', along with a 'Go Premium' button and a user profile icon labeled 'A'. A 'Ready to level up?' banner promotes over 400 challenges with a 'Play now' button. The user's profile section, 'Hey Abhishek!', includes a bio and a 'My Learning' section with tabs for 'Current', 'Recent', and 'Saved'. The 'Current' tab shows 'Module 1: Introduction to Cyber Security' with a laptop icon. To the right, a 'The Deep Dive' section encourages collecting tickets and winning prizes, with a 'Learn more' link and a grid of placeholder images.
